PROJECTS

Travel Sync App
https://github.com/astha2412/travel-sync-app

- Developed a Travel Sync App using React and Google Maps API, enabling users to effortlessly filter and discover top-rated restaurants, attractions, and hotels for a personalized travel experience.
- Integrated a Weather API for real-time weather information, helping users make informed decisions and plan their activities accordingly.

Training and Placement Cell Website
https://tnpmmmut.tech/

- This website is created using ReactJS designed for Training and Placement Cell of MMMUT, Gorakhpur.
- Designed responsive web pages, such as the Homepage, Team members page, and Image gallery, utilizing Bootstrap classes and CSS to enhance the user experience.
- Worked in a team of 5 to build the website.

Fashion Designer Portfolio Website
https://fashion-designer-portfolio.netlify.app/

- Designed and developed a captivating Fashion Designer Portfolio Website featuring an impressive collection of designer paintings, design portfolios, resume, and captivating artworks, showcasing the creativity and talent of fashion design students.
